Dear Mr. President,

My name is Julia Karolina Saj, I'm 17 years old and Artist from Germany. My stage name is "Miss Revolution" and my work deals very with politics and with celebrities.

I understand the whole world is no longer what they have all with the Barack Obama? Ok politically correct and extremely boring. For an artist, too perfect surface. Compared to a life artist, It seems to me like Barack Obama more like a statue of a Hells!

In recognition of you as a man I have made this work. You can understand my picture as you want the rest is my secret.

For more information on my site www.MissRevolution.com

Sincerely,

Julia Karolina Saj
