Colonia Alemania 2 July 2009

Dear Mr Tompkins

My name is julia-karolina saj, I am a seventeen years old school student and a free artist.
My work is very multifaceted, it deals with politic, fashion, photography,...etc.
This is my internet page address: www.MissRevolution.eu
Satisfy yourself, it would be a pleasure for me.

Everybody is talking about the protection of the environment, But you act.

Social engagement for the protection of the environment with your own money and work is a rarity, but you also invest much time for project, which the primeval forest need that much and the capitalists hate.
You disrupt the exploitation of the earth and give a great example.

I hope you will never stop.
To give away personal fortune and get a "new" view of life is admirable and desired respect.
I am so proud, that people like you Mr Tompkins exist.

I want to thank you for your tireless engagement

Yours sincerely

Julia-Karolina Saj
